

PAPERPAK™

The Guide

The PaperPak Difference

PaperPak was established in 1989, with the aim of providing a complete paper packaging solution for retailers.

As part of the Detmold Group founded by Colin Detmold in 1948, we are a proudly Australian family owned and operated business.

We offer the largest range of recyclable retail packaging in Australia and New Zealand, servicing some of Australia's biggest retail brands like Country Road, RM Williams and Kathmandu.

Sustainability

We demonstrate our commitment to the environment and social responsibility through our actions.

Assessing all materials for their impact on the environment, we only use paper and board from large reputable suppliers.

We now have the largest range of Australian made carry bags using 100% recycled material.

PaperPak's extensive range of sustainable paper solutions, continues to support the move away from single use problematic plastic, as legislation evolves around Australia. Scan the QR code for a full list of SUPP's bans nationally and discover compliant options from PaperPak.

www.paperpak.co/plasticban

Custom Print

Brand your product for the biggest impact.

Custom printing is available on our entire bag range. Labels, gift wrap and tissue paper can all feature your brand. The only limit is your imagination!

- World-class printing technologies
- High quality, environmentally conscious inks
- Strict quality control procedures
- A minimum order quantity of 3000 for a one or two colour print

Contact our packaging experts for advice on customising your packaging. We can guide you on artwork preparation or provide an inhouse graphic design service for a small fee.

Carry Bags

PaperPak carry bags are the premium way to package retail goods

Made from quality paper, these bags are available in a range of finishes, colours, and handle types, allowing you to choose the carry bag that best reflects your brand.

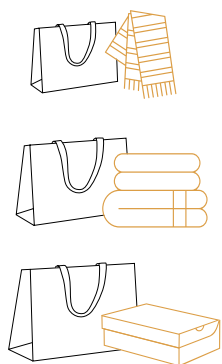

Choose from a great range of custom print options to enhance your bag and build awareness of your brand. Finishing touches like labels and tissue mean you can be sure that all the little things are taken care of.

The Luxe Range

Discover our new premium embossed paper Carry Bags

Featuring a stylish linear textured finish and premium webbed double-layer paper handles, these bags offer premium impression with sustainable impact. Kerbside recyclable and available in small, medium, and large sizes, in 180gsm white or brown kraft with matching handles, these bags seamlessly blend sustainable practices with premium quality for an elevated gift-giving experience.

White Duo Carry Bags

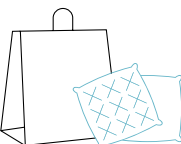

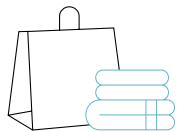

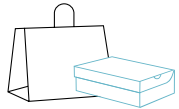

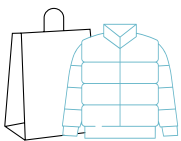

Sturdy and stylish

Explore the perfect balance of style and sustainability with our dual-toned Duo Bags. Crafted in Australia, these premium quality 135gsm versatile Paper Twist and Flat Handle Carry Bags effortlessly accommodate clothing and accessories. Offered in an assortment of medium and large sizes, with capacities of up to 14kg, these compostable, recyclable, and sustainably sourced bags offer an eco-conscious choice that maintains elegance and efficiency. This dual-toned material lends itself to custom print where colour prints clearly on the white exterior, whilst maintaining the earthy, natural feel with the kraft interior.

Flat Bags

Perfect for thin or narrow items

Made from quality paper, these bags are ideal for packing items such as books, magazines, cards or items that don't require the gusset of our other bags. These bags are convenient for stacking and storage, as well as being easily recyclable. And for a finishing touch, complement with one of our labels.

Understanding our Packaging Terms

Australian Made

A product can be described as 'Australian made' or 'made in Australia' if it underwent its last substantial transformation in Australia.

Recyclable

A product or material is recyclable if it can be collected and re-manufactured into a new product. If a PaperPak product is listed as recyclable, it means this product can be readily recycled via kerbside recycling streams.

Sustainably Sourced

The paper or board materials used in our products are responsibly sourced, and the supplier has been audited for evidence of sustainable and ethical practices.

Compostable

Our compostable packaging is made from organic materials that break down naturally in optimal conditions, leaving no toxic residue. Microorganisms, humidity, and heat is required to break packaging down effectively and when combined with green waste and food scraps, can create a nutrient dense compost to improve our soils.

Acid Free

Acid-free paper does not contain any harmful acid that can damage documents, paintings, etc.

How we measure our products

Measurements throughout The Guide are displayed in millimeters.

Bags

L x W x G
Length x Width x Gusset
(where applicable)

Wrapping Paper

L x W
Length (in meters) x Width

Cartons and Mailers
